

CSR Projects approved by the Board
Implementation via Pharmed Foundation

Expanding HPV Awareness and Vaccination for a Healthier Future	Conducting wellness camps for women across the state to create awareness on HPV Vaccination and several aspects of women's health
Neonatal Care	Providing medical assistance to the patients with airway and swallowing disorders in need of pulmonary care.
Advancing Respiratory Care and Physical Rehabilitation Support	Project titled 'Light of Hope' fund to provide pulmonary care assistance, through devices, for patients with rare diseases.
Restoring Mobility & Dignity	Provide financial assistance to procure mobility equipment for patients with disabilities.
Strengthening Geriatric Care and Enhancing Functional Recovery	Providing assistance in setting up a modern Neuro-Rehabilitation Unit for evidence-based elderly care and long-term independence.
Advancing Affordable Specialised Healthcare	Supporting the ongoing dialysis and eye care camps conducted at the community healthcare centre.
Supporting Residential Care & Inclusive Development	Supporting the ongoing program of free boarding hostel for the blind and physically challenged students who are given free education, boarding, school uniforms and other basic amenities.
Empowering Children with Special Needs	Supporting the daily activities of the Special School and Day Care Centre for children of various disabilities.
Strengthening Care for Children & Families Living with HIV	Facilitating programs targeting women, children, and under-resourced communities thereby focusing on counselling, education, and sustainable healthcare initiatives.
